TRAINING ON DEMAND

860 DSPi™

- 24/7 unlimited access.

- Learning is accomplished through a self-paced program.

- Hands-on learning that encourages you to test what you've learned.

- Exercises ensure that you retain what you study and build confidence in your knowledge.

- Post-assessment exams prove you've learned the material and give you and your manager certified proof of performance.

- Everything you need to increase your depth of understanding while retaining the information you need to be successful.

We Want You To Succeed

Trilithic wants to make sure you gain the skills you need to succeed in today's fast paced technical world.

Did you know that in a 2003 study it was determined that 50 percent of the 900,000 jobs in the technology industry are going unfilled because of the lack of qualified candidates? In today's economy, knowledge is the key to unlocking your earning potential. Increasingly complex work environments demand that employees have the requisite technical skills to compete. Focused online training can ensure you have those skills, and certification provides you with the proof.

Help boost your career. Get certified!

Courses Currently Available:

- *860 DSPi Introduction*
- *860 DSPi Advanced Services Training*

Free Online Training

Our online training courses for the 860 DSPi give you an overview of the features and capabilities of the multifunction analyzer, as well as in-depth knowledge and understanding of the measurements and tasks you use on a regular basis.

These are not demos. Each course is a complete one- to three-hour online training course. These training modules are a convenient way for students to participate in a self-paced, interactive training course on the internet, from the comfort of the home or office.

These courses are ideal for training employees located in remote or multiple locations, or for a small number of employees who require training but cannot be out of the field for scheduled class times.

think ahead

860 DSPi™

These courses incorporate basic knowledge and hands-on simulation of techniques. Students can practice and repeat information at their own pace as well as supplement the expertise and knowledge obtained in instructor-led courses.

Best of all, these online training courses are currently available for FREE online; all you have to do is register.

The best part about online training is that you can study from your own home, at your own pace, from the comfort of your own chair. We are dedicated to providing our customers the tools to succeed. Our 860 DSPi training post-assessments prove you've learned the material and give you a certificate of proof for your manager.

Certifications Currently Available:

■ *860 DSPi Advanced Services Testing*

This is everything you need to increase your depth of understanding while retaining the information you need to be successful. The post-assessment exam at the end of Course Two currently offers certification using the 860 DSPi for advanced digital services. Completing the exam with a 90% or better will certify you using the 860 DSPi. A certificate and letter of achievement will be sent to you in recognition of your accomplishment.

Help Boost Your Career. Get Certified!

If you're looking for proof of professional achievement and want to increase your opportunities for advancement while increasing your skill set, online training is the most convenient way to achieve those goals.

Additionally, our courses offer certification for completion. Certification can lead to better visibility, opportunities, and jobs. In today's increasingly complex and highly-specialized economy, credentials are everything. Sure, *you* know you've got the skills to do the job, but how do you convince potential employers? For many career-minded professionals, certification is often the answer.

See for yourself the quality of training that is offered from Trilithic. Fill out the simple registration form at *www.trilithic.com/training* to get to our free course site. You'll have a choice of several free complete courses to take.
