If you are evaluating a new Category 5 tester, look no further than the company that invented handheld cable testing. PentaScanner products set the standard for LAN cable testing, certification and accuracy.

**PentaScanner 350 with 2-Way Injector+**

Superior link quality is required for high speed applications. Now you can test Category 5 links for superior performance. PentaScanner 350’s Performance Grading puts the focus on link quality, ensuring that your cabling, connectors and installation will meet requirements now and well into the future. Performance Grading measures and rates the quality of high performance links by analyzing the headroom available for high-speed applications. PentaScanner 350 can actually differentiate links that are marginally passing from links that have up to 70 times better signal-to-noise ratios.

PentaScanner 350 measures Quality Bands from 1 to 7, with 1 being a marginally passing Category 5 link and 7 being the highest link performance. Now you can tell those links that marginally pass and may require costly rewiring from the links that are highly reliable.

PentaScanner 350 includes all the proven features in PentaScanner+, such as a 21-second Autotest, full cable certification, extensive cabling library, automatic increment of circuit ID, replaceable, rechargeable battery, Flash ROM for field updates and storage of 500 Autotests. And, if you already own PentaScanner+, it’s easy to upgrade to PentaScanner 350.

Don’t just test to Category 5 requirements – test for superior performance!

**PentaScanner+ with Super Injector+**

When only single-ended testing is required, PentaScanner+ with Super Injector+ is the most economical tester available. PentaScanner+ far exceeds EIA/TIA TSB-67 Level II accuracy requirements. Its superior accuracy is the result of years of accumulated knowledge and experience testing and certifying network systems. In fact, PentaScanner+ provides accuracy indistinguishable from a network analyzer.

**Features of PentaScanner 350 and PentaScanner+**

- Test all pair combinations to 100 MHz.
- Measure Near-End Cross talk (NEXT), attenuation, Return Loss, resistance, impedance, length, capacitance, Attenuation-Crosstalk Radio (ACR), Power Sum NEXT and wiremap.
- Monitor and graph network traffic.
- Print complete, easy-to-read certification reports.
- Allow you to program test limits and customize Autotests.
- Store up to 500 Autotests.
- Allow flash ROM updates from the field.
- Include a replaceable, rechargeable battery for all day use.
- Incorporate a graphical backlit display screen and on-line help.
- Designed for durability.
- Compatible with Microtest’s PC-based MT Crimp™ for complete physical infrastructure management.
- Free, unlimited technical support.

**Tools and Leadership You Can Trust**

When you need the job done right the first time, there’s only one choice – Microtest, the worldwide leader in cable certification and diagnostic technology.
PentaScanner® Products
[ high-performance cable certification tools ]

Product Package
- PentaScanner 350 with 2-Way Injector+ or PentaScanner+ with Super Injector+
- Replaceable, rechargeable battery
- User documentation
- (2) Test patch cables
- (2) Modular 8 adapters
- Serial cable
- (1) AC adapter with the PentaScanner+ or (2) AC adapters with the PentaScanner 350
- Soft carrying case

PentaScanner Specifications
Part Numbers
- PentaScanner 350 with 2-Way Injector+ #8180-xx*
- PentaScanner+ with Super Injector+ #8150-xx*

*Call Microtest Sales for U.S. and International part numbers

Physical Characteristics
- Dimensions: 10.2 cm x 20.3 cm x 5.5 cm (4” x 8’ x 2.15’)
- Weight: 0.79 kg (1 lb., 12 oz.)

Power
- Rechargeable, replaceable battery pack
- Built-in charger using AC adapter
- External battery charger available as an accessory
- Battery life: 8 hours daily operation
- AC: 9V DC – 1 amp AC adapter for continuous operation or charging

Environmental
- Operating Temperature: 0° to 50°C (32° to 122°F)
- Storage Temperature: -10° to 55°C (14° to 131°F)
- Operating Humidity: (non-condensing): 10 to 90%
- Storage Humidity: 5 to 95%

Measurement Ports
- BNC and 36-pin connector that withstands in excess of 20,000 mating cycles
- Testing of all four pairs on Modular 8 (RJ-45) is fully supported

Serial Port
- Connector and Cable: DB-9F
- Baud rate: 300 to 38,400 baud
- Protocol: Parity - NONE
- 8 Data bits, 1 Stop bit
- Handshake: XON/XOFF RTS/CTS

Memory
- Test Storage: Up to 500 complete Autotest results can be stored
- Control: Flash memory allows electronic upgrading in remote locations

Autotest Functions
- Full suite of tests to determine if cable meets generic cabling or network type requirements (TIA TSB-67, ISO Class C, D, 10-Base T, Token Ring, Fast Ethernet, ATM 155 etc.)
- Up to 20 user definable Autotest programs

Near-End Crosstalk (NEXT)
- Tests all six pair combinations from both ends*
- Power Sum NEXT computed from both ends for all 4 pairs*
- Frequency range: 0.7 to 100 MHz
- Sweep Mode: Swept 1- 100 M Hz
- Accuracy: ± K ± Length Resolution

Attenuation
- Tests all four pairs using far end active signal injection
- Frequency range: 1.0 to 100 MHz
- Sweep mode: Swept 1-100 MHz
- Accuracy: ± NVP uncertainty where K=4% of frequency

*Notes:
(1) NEXT accuracy is calculated at the Basic Link Limit (29.3 dB) per error model in TSB-67 A.3
(2) NEXT accuracy is calculated at the channel Limit (27.1 dB) per error model in TSB-67 A.3
(3) Performance assumes a high performance modular 8 plug
(4) Attenuation accuracy calculated per error model in TSB-67 A.3

Return Loss
- Test all four pairs from both ends*
- Frequency Range: 1.0 to 100.0 MHz
- Measurement Range: 0 to 20.0 dB
- Measurement resolution: 0.1 dB

Impedance
- Range: 0 to 200 ohms
- Accuracy: 5 ohms
- Resolution: 2 ohms

Capacitance
- Range: 0 to 100,000 pF
- Accuracy: ± 10% @ 200 to 100,000 pF

High Voltage Input/Protection:
- The test interface withstands input hazard conditions that arise from normal telephone interfaces (48 VDC at less than 80 mA) or 24 VAC power used to power many telephone keystest/TSB-67 Level II
- Accuracy is maintained through Quality Band 7
