

Go digital with 3Shape TRIOS 3 Basic today!

The new 3Shape entry-level scanning solution, featuring core TRIOS award-winning scanning technology. With a simple 'scan and send-to' workflow, the new 3Shape TRIOS® 3 Basic is the easy and best-in class solution for your first step into digital dentistry.

TRIOS 3 Basic enables you to send your production-ready scans to a full range of treatment providers and more than 20,000 labs for manufacturing.

Strong research evidence for excellent TRIOS accuracy

18 independent studies report statistically higher accuracy for TRIOS compared with conventional impressions and/or impressions made with other major intraoral scanners.*

AI scan technology for simplified scanning

Removes unnecessary soft tissue as you scan to make scanning easier.

Realistic colors and shade measurement for improved patient engagement

Create high-quality digital impressions in lifelike colors to evaluate treatment and activate quality dialogue with patients.
