

## LANcat® System 5 Network Cable Tester & Talk Set

2-YEAR  
WARRANTY

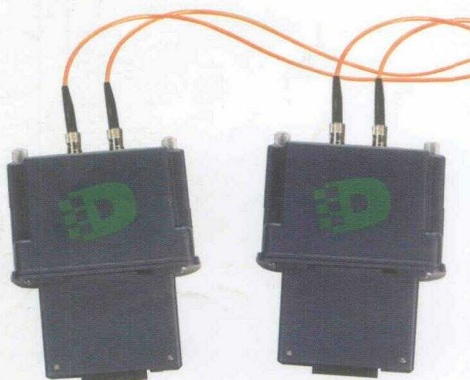

Certifies Category 5/Class D twisted pair cabling. Autotest suite includes Power Sum NEXT, Attenuation, Power Sum ACR, Length, WireMap, Propagation Delay, Delay Skew and headroom margin. Operates from AA cells, AC/mains adapter, or optional NiMH battery pack. Includes hard carrying case.

- Certifies 100 MHz CAT 5 cabling.
- Built-in two-way talk set.
- Cable toner for locating cable ends.
- Saves 800 Autotest reports.
- Report Manager PC software.
- Optional vinyl handset covers.
- Fiberoptic cable testing options.
- CE compliant.

LANcat® System 5 (115 volt, 60 Hz)	54713
LANcat® System 5 (230 volt, 50 Hz)	54714
LANcat® System 5 (230 volt, 50 Hz, Euro CE)	54716
LANcat® System 5 (230 volt, 50 Hz, UK CE)	54715

## FIBERcat™ Test & Talk Fiber Certification System

2-YEAR  
WARRANTY

Converts any LANcat® System 5 or System 6 into a precision multimode optical loss test set. Measures dual wavelength, bi-directional multimode 850/1300 nm optical loss and link length on two cables simultaneously. Includes automated link loss budget calculation and automatic Pass/Fail determination.

- Tests two fibers with one Autotest.
- Measures bi-directional loss at 850 and 1300 nm.
- Measures link length and propagation delay.
- Stores 800 Autotest reports in LANcat handsets.
- Includes Report Manager PC software.
- Talk over multimode fiber.
- CE compliant.
