Versiv™ Cable Certification System

Versiv users report spending 1/3 the time on testing and reporting, cutting the total cost of a job by 10%.

Certifying a cable is one part of a process that starts with design of a structured cabling system and ends with systems acceptance. The faster that process goes, the more profitable you'll be. Unfortunately, there are a lot of things that slow the process down – testing to the wrong limits, waiting for lead technicians to set up or troubleshoot, and discovering that you have incomplete results after your team has left the construction site.

Research shows that over 90% of contractors report dealing with issues related to set-up, testing, and reporting every month. **It adds up to a week of wasted labor on a typical 1,000 drop job.**

Versiv is designed to eradicate these problems. Its ProjX™ System manages job requirements and progress from setup to systems acceptance, making sure all tests are completed correctly. The Taptive™ User Interface simplifies set up, eliminates errors and speeds troubleshooting. The LinkWare™ Live cloud service gives you visibility and control of the whole process: you can set up and track your testers and inspect results from any mobile device while the job is in process. It even lets you upload and integrate results from multiple testers at multiple jobsites so you can quickly generate reports with the de-facto industry standard LinkWare PC.

Eliminate the problems, get jobs done faster, and make money every time you use Versiv.

COPPER CERTIFICATION AND TESTING

	DSX-5000 CableAnalyzer™	CableIQ™ Qualification Tester	MicroScanner ² Cable Verifier
Supports structured cabling warranties	✓		
Meets TIA/ISO certification standards requirements	Levels IIe, III, IIIe, Level IV, and Level V.		
Provides pass/fail results	9.9 second Cat 6A		
Documents test results	✓	✓	
Qualifies cabling speed (10/100/VoIP/Gig)	✓	✓	
Advanced troubleshooting: Fault Info HDTDX, HDTDR	✓		
Basic troubleshooting: distance to break or short	✓	✓	✓
Continuity and wiremap	✓	✓	✓

DSX-5000 CableAnalyzer™

The DSX-5000 CableAnalyzer improves the efficiency of copper certification with unmatched speed for testing Cat 6A and Class F_x while meeting IEC Level V—the most stringent accuracy requirement. The ProjX Management System ensures jobs are done correctly the first time and helps track progress from set-up to systems acceptance. Taptive user interface troubleshoots faults faster by graphically indicating the source of failures including crosstalk, return loss, and shield faults. Analyze test results and create professional test reports using LinkWare™ Cable Test Management Software.

Fluke Networks' DSX-5000 CableAnalyzer is Intertek (ETL) Verified in accordance with the IEC 61935-1 specifications for accuracy Level IIIe, IV, and Level V, and in accordance with the ANSI/TIA-1152 specifications for Level IIIe.

- Versiv™ modular design supports copper certification, fiber loss, and OTDR testing
- Taptive™ user interface simplifies set-up, and eliminates errors
- Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live
- Endorsed by more than 28 cabling manufacturers worldwide
- Alien Crosstalk testing capability included

DSX-PLA001	DSX Universal Permanent Link Adapter
DSX-PLA004S	DSX CAT 6A/Class E _A Permanent Link Set
DSX-PLA011S	DSX TERA CAT 7A/Class F _A Permanent Link Set
DSX-CHA004S	DSX CAT 6A/Class E _A Channel Set
DSX-CHA011S	DSX TERA Cat 7A/Class F _A Channel Set
DSX-CHA012S	DSX GG45 Class F _A Channel Adapter Set
DSX-CHA021S	DSX M12 4-Position Adapter Set
DSX-COAX	DSX Coax Adapter Set
DSX-TERA-KIT	DSX TERA CAT 7A/Class F _A Permanent Link and Channel Kit
DSX-5000 MOD	1 GHz DSX-5000 Replacement Module
DSX-PC5ES	DSX CAT5 Patch Cord Adapter Set
DSX-PC6S	DSX CAT6 Patch Cord Adapter Set
DSX-PC6AS	DSX CAT6A Patch Cord Adapter Set
VERSIV-M	Versiv Main Replacement
VERSIV-RU	Versiv Remote Replacement
VERSIV-TSET	Versiv Headphones
VERSIV-BATTERY	Versiv Battery
VERSIV-ACUN	Versiv Charger
VERSIV-STRP	Versiv Strap Kit
VERSIV-BACKPK-STRP	Backpack strap for Versiv Large Case
VERSIV-CASE3	Versiv Hardsided Case
VERSIV-LG-CASE	Versiv Large Carry Case
VERSIV-SM-CASE	Versiv Small Carry Case
VERSIV-STND	Versiv Demo Stand
LinkWare PC	LinkWare Cable Test Management Software: Free download at: www.flukenetworks.com/linkwarePC
LinkWare Live	Cloud-based service that lets you manage certification jobs anytime, anywhere, with anyone on any device www.flukenetworks.com/linkwarelive
DTX-ACUN	AC Charger Universal
DTX-ACNA	AC Charger, North America
DTX-CASE	Standard Carrying Case—DTX Series
DTX-STRP	DTX carrying strap
DTX-LION	Lithium Ion Battery Pack
DTX-COAX	DTX Coax Cable Test Adapter (2 adapters included)
DTX-PC5ES	DTX Patch Cord Test Adapter Set for Category 5e patch cords. Certifies both shielded and unshielded category 5e patch cords per ANSI/TIA 568-C and ISO 11801:2010

Copper Adapter and Accessories cont.	
Model	Description
DTX-PC6S	DTX Patch Cord Test Adapter Set for Category 6 patch cords. Certifies both shielded and unshielded category 6 patch cords per ANSI/TIA 568-C and ISO 11801:2010
DTX-PC6AS	DTX Patch Cord Test Adapter Set for Category 6A patch cords. Certifies both shielded and unshielded category 6A patch cords per ISO 11801:2010
DTX-PCTAC5EKS	Twin pack of shielded Cat 5e jacks. Recommended replacement for DTX-PC5ES Patch Cord Test adapters
DTX-PCTAC6KS	Twin pack of shielded Cat 6 jacks. Recommended replacement for DTX-PC6S Patch Cord Test adapters
DTX-PCTAC6AKS	Twin pack of shielded Cat 6A jacks. Recommended replacement for DTX-PC6AS Patch Cord Test adapters
DSP-PCI-C6JACK	Replacement Cat 6 Jacks for the DSP-PCI-C6 Patch Cord Adapter, set of 10
DTX-PLA002	One Permanent Link Adapter for Cat 6A and Alien Cross Talk testing. This adapter can be used for all permanent link tests Cat 6A/6/5e/5 and Cat 3
DTX-PLA002PRP	DTX-PLA002 plug replacement parts. This item includes two contact blocks of the 8-pin modular plug.
DTX-PLA001	One Permanent Link Adapter for use with the DTX Series CableAnalyzer. This adapter is compatible with all DSP-PMxx Personality Modules but it does not include a Personality Module
DTX-CHA002	Cat 6A/Class Ea Channel Adapter optimized for Alien Crosstalk measurements. This adapter can be used to test Cat 6A/6/5e/5/3 and Class Ea/E/D and C channels
Personality Modules	
DSP-PM19B	SYSTIMAX® VisiPatch® 360 (T568B) Personality Module
DSP-PM19A	SYSTIMAX VisiPatch 360 (T568A) Personality Module
DSP-PM17B	TYCO/AMP 610XC Connector (T568B) Personality Module
DSP-PM17A	TYCO/AMP 610XC Connector (T568A) Personality Module
DSP-PM16B	LEVITON 110 (T568B) Personality Module
DSP-PM16A	LEVITON 110 (T568A) Personality Module
DSP-PM15B	ADC/KRONE Highband (T568B) Personality Module
DSP-PM15A	ADC/KRONE ULTIM8 (T568B) Personality Module
DSP-PM14B	ADC/KRONE ULTIM8 (T568B) Personality Module
DSP-PM14A	ADC/KRONE ULTIM8 (T568A) Personality Module
DSP-PM13B	SIEMON S210 (T568B) Personality Module
DSP-PM13A	SIEMON S210 (T568A) Personality Module
DSP-PM12B	PANDUIT GIGAPUNCH (T568B) Personality Module
DSP-PM11B	Belden GigaBIX (T568B) Personality Module
DSP-PM11A	Belden GigaBIX (T568A) Personality Module
DSP-PM10B	SYSTIMAX 110 (T568B) Personality Module
DSP-PM10A	SYSTIMAX 110 (T568A) Personality Module
NFA-LC	Set of two LC Adapters for DTX-xFM2 power meter port
NFA-ST	Set of two ST Adapters for DTX-xFM2 power meter port
NFA-FC	FC Test Adapters, Set of two
NFB1/2-LC/ST	A kit containing the Test Reference Cords sets NFK1-DPLX-LC, NFK1-DPLX-ST, NFK2-DPLX-LC, NFK2-DPLX-ST, LC and ST adapters for the power meter and 62.5/125 and 50/125
NFK1-DPLX-SC	Duplex MM 62.5 μm TRC for SC Adapter, Set of 2
NFK1-DPLX-LC	Duplex MM 62.5 μm TRC for SC Adapter, Set of 2
NFK1-DPLX-ST	Duplex MM 62.5 μm TRC for SC Adapter, Set of 2

Copper Adapter and Accessories cont.

Model	Description
NFK1-DPLX-FC	Duplex MM 62.5 μm TRC for SC Adapter, Set of 2
NFK2-DPLX-SC	Duplex MM 50 μm TRC for SC Adapter, Set of 2
NFK2-DPLX-LC	Duplex MM 50 μm TRC for SC Adapter, Set of 2
NFK2-DPLX-ST	Duplex MM 50 μm TRC for SC Adapter, Set of 2
NFK2-DPLX-FC	Duplex MM 50 μm TRC for SC Adapter, Set of 2
NFK3-DPLX-SC	Duplex SM TRC for SC Adapter, Set of 2
NFK3-DPLX-LC	Duplex SM TRC for LC Adapter, Set of 2
NFK3-DPLX-ST	Duplex SM TRC for ST Adapter, Set of 2
NFK3-DPLX-FC	Duplex SM TRC for FC Adapter, Set of 2
NFK1-MANDREL-KIT	Multimode Fiber Mandrel kit containing two red mandrels for 50/125 μm cable and two gray mandrels for 62.5/125 μm cable
NF-MANDREL-50	Multimode Fiber Mandrel for 50/125 μm cable
NF-MANDREL-625	Multimode Fiber Mandrel for 62.5/125 μm cable
NFC-Kit-Case	Fiber Optic Cleaning Kit.
DTX-FBCSE	Carry case for DTX-xFM or DTX-xFM2 Fiber Loss Test Modules with storage space for Test Reference Cords and fiber connector adapters

Versiv mainframe and accessories

DSX CableAnalyzer

CertiFiber Pro Quad OLTS

OptiFiber Pro Quad OTDR

Versiv Professional Kit includes:

Versiv mainframe and accessories: (2) Versiv Mainframes, (2) Headsets, (2) Hand Straps, (2) Shoulder Straps, Hard sided Carry Case, (2) Large Duffle Bags, (2) Backpack straps for Versiv Duffle Bag, (2) Versiv stands, USB Interface Cable, Versiv Open Source Software CD, (2) AC Chargers, (2) Universal Couplers, Statement of Calibration, and Getting Started Guide

DSX CableAnalyzer: (2) DSX-5000 CableAnalyzer Modules, (2) AxTalk Terminators, Set of CAT 6A/Class EA Permanent Link Adaptors, Set of CAT 6A/Class EA Channel Adaptors, Universal Permanent Link Adaptors Set (accepts personality modules), DSX Series Coaxial Adapter Set, DSX Patch Cord Test Adapter Set for Category 5e patch cords, DSX Patch Cord Test Adapter Set for Category 6 patch cords, DSX Patch Cord Test Adapter Set for Category 6A patch cords, DSX M12 4-position Channel Adapter Set

CertiFiber Pro Quad OLTS: (2) CertiFiber Pro Quad OLTS Modules, (4) Sets of 50μm Multimode EF TRC kits: SC/LC (2 SC/LC, 2 LC/LC), SC/SC (4 SC/SC), SC/ST (2 SC/ST, 2 ST/ST), SC/FC (2 SC/FC, 2 FC/FC), 4 Sets of 62.5μm Multimode EF TRC kits: SC/LC (2 SC/LC, 2 LC/LC), SC/SC (4 SC/SC), SC/ST (2 SC/ST, 2 ST/ST), SC/FC (2 SC/FC, 2 FC/FC), 4 Sets of 9μm Singlemode TRC kits: SC/LC (2 SC/LC, 2 LC/LC), SC/SC (4 SC/SC), SC/ST (2 SC/ST, 2 ST/ST), SC/FC (2 SC/FC, 2 FC/FC), 4 TRC Carry Cases, 4 Sets of Interchange Adapters (LC – installed on units, SC, ST and FC)

OptiFiber Pro Quad OTDR: OptiFiber Pro Quad OTDR Module, 50μm Multimode Launch Cords (3 SC/LC, 3 SC/SC, 2 SC/ST, 2 SC/FC, 1 LC/LC, 1 ST/ST, 1 FC/FC), 62.5μm Multimode Launch Cords (1 SC/LC, 3 SC/SC, 2 SC/ST, 2 SC/FC), 9μm Singlemode Launch Cords (3 SC/LC, 3 SC/SC, 2 SC/ST, 2 SC/FC, 1 LC/LC, 1 ST/ST, 1 FC/FC, 2 SC/SCAPC, 2 SC/LCAPC), 50μm Multimode TRC OTDR port saver (SC/SC, LC/LC), 62.5μm Multimode TRC OTDR port saver (SC/SC, LC/LC), 9μm Singlemode TRC OTDR port saver (SC/SC, LC/LC), OTDR Source Port Interchange Adapter Sets (LC – installed on unit, SC/ST, FC), (2) OTDR Hanging straps and magnets,

Fiber inspection and cleaning: (2) Versiv USB inspection cameras and tips sets, (2) OneClick Cleaners (1.25 mm), (2) OneClick Cleaners (2.50 mm), Enhanced Fiber Optic Cleaning Kit with OneClick cleaners

Fiber inspection and cleaning

CableIQ™ Qualification Tester

CableIQ network cable qualification test tool is designed for network technicians who need to troubleshoot connectivity problems and qualify cabling bandwidth. It detects speed and duplex settings of attached switches and PCs. Intelligent wiremap graphically shows distance to faults (e.g.: pin 1 break at 37 ft). Lightweight, rugged, reliable unit tests all copper cabling. Its ease and power helps you close trouble tickets faster and ensure smooth upgrades to higher network speeds.

- Sees if your existing cabling can support voice, VoIP, 10/100/Gigabit Ethernet
- Troubleshoots why existing cabling plant can't support the desired network bandwidth
- Discover what's at the end of any cable and displays device configuration (speed/duplex/pairing)
- Frees up switch ports and identifies unused links
- Graphically maps wiring configuration and shows distance to faults, graphical wire mapping, opens, and shorts.
- Locates and traces cable with IntelliTone™ digital signaling technology

CableIQ Advanced IT Kit

Model	Description	Gold 1YR	Gold 3YRs
CIQ-100	CableIQ with remote adapter, soft carrying case and four AA batteries	GLD-CIQ	GLD3-CIQ
CIQ-KIT	CableIQ main unit, eight remote adapters, Reporter software, IntelliTone 200 Digital Probe, (2) RJ45-RJ45 patch cords, USB cable, coax 'F' push-on adapter, 75-ohm coax patch cord, RJ45/11 universal coupler, RJ11-RJ11 patch cord, four AA batteries, and hard carry case	GLD-CIQ	GLD3-CIQ
CIQ-KRQ	CableIQ, RJ-45 patch cord (2), RJ-11 patch cord (2), bare wire adapter, speaker wire adapter, coax cable, coax BNC adapter, coax RCA adapter, "Qualified" labels (50) and a soft carrying case	GLD-CIQ	GLD3-CIQ
CIQ-FTKSFP	Copper and Fiber Technician's Kit—includes the CableIQ (CIQ-KIT) and SimpliFiber Pro (FTK1000) Fiber Test Kit. See Photo	GLD-CIQ GLD-SFPRO	GLD3-CIQ GLD3-SFPRO

Accessories

Model	Description
MICRO-DIT	Micro IT kit (CIQ + MicroScanner®) soft carry duffle
CIQ-COAX	CableIQ Coax Adapter Kit—includes F-connector, BNC and RCA connectors
CIQ-IDK24	CableIQ Remote Identifier Kit—includes remote identifier numbers 2-4
CIQ-IDK57	CableIQ Remote Identifier Kit—includes remote identifier numbers 5-7
CIQ-RJA	RJ-45/11 modular adapter
CIQ-SPKR	CableIQ speaker wire adapter
CIQ-WM	CableIQ main wiremap adapter (replacement part for lost or damaged unit)
CLIP-SET	Clip Set – includes RJ-45-to-8-clip test lead

To learn more visit: www.flukenetworks.com/cableiq

MicroMapper™

Simple verification tester verifies wiremap and identifies faults with LEDs.

- Testing of twisted pair cables for open circuits, shorts, crossed pairs, reversed pairs and split pairs
- Easy-to-read fault display
- Tone generator for tracing installed cables hidden in walls, floors and ceilings
- Remote unit enables one-person testing of installed cables

Model	Description
MT-8200-49A	MicroMapper and MicroMapper Remote, patch cable, 6-volt alkaline battery and user guide

To learn more visit: www.flukenetworks.com/micromapper

MicroScanner² Cable Verifier

Next generation MicroScanner streamlines voice/data/video cable and service testing. The user interface makes testing fast, easy, and crystal clear. Everything cable technicians need to know, including available services (10/100/1000 Ethernet, POTS, PoE voltage), cable length, wiremap, cable ID, and distance to fault all are displayed on one oversized backlit screen. Replace multiple tools by testing all RJ-11, RJ-45, and coax (F) media with no adapters. Built-in IntelliTone™ digital and analog toning precisely locates virtually any cable or wire pair – even on active networks. Ergonomic design features sleek rubber over mold to enhance grip and ruggedness. Includes carry case.

- Displays cable length, wiremap, cable ID, and distance to fault on one screen
- Detects today's media services, including 10/100/1000 Ethernet, POTS, and PoE
- Locates virtually any cable or wire pair with IntelliTone digital and analog toning

Model	Description
MS2-100	MicroScanner ² Cable Verifier
MS2-KIT	MicroScanner ² Professional Kit—includes MicroScanner ² Cable Verifier, Remote ID #s 2-7, IntelliTone Pro 200 Probe, bare wire adapter, coax cable, two shielded RJ-45 cables, two RJ-11 cables and a deluxe carry case
MS2-TTK	MicroScanner ² Termination Test Kit—includes MicroScanner ² Cable Verifier, IS60 Pro Tool Kit, IntelliTone Pro 200 Probe, RJ-11 and RJ-45 patch cables, lanyard, owners CD and quick start guide, 9 volt battery and a deluxe carry case
MS2-FTK	Copper and Fiber Basic Technician's Kit—includes the MicroScanner (MS2-100) and SimpliFiber Pro (FTK1000) Fiber Test Kit
MS2-IDK27	MicroScanner ² Remote ID Kit #s 2-7
MT-8200-63A	IntelliTone Pro 200 Probe
MS2-WM	MicroScanner ² Main Wiremap Adapter
MICRO-DIT	Mirco IT kit (CIQ + MircoSacner ²) soft carry duffle

IntelliTone™ Pro 200 LAN Toner and Probe

The IntelliTone Pro 200 LAN Toner and Probe Series from Fluke Networks is the first network cable toner and probe to offer digital and analog signaling all in one tool. The IntelliTone Pro 200 LAN Toner and Probe Series from Fluke Networks gives you superior vision for locating cables hidden in floors, ceilings, walls, and in bundles. Its breakthrough digital technology makes it the first tool to tone and trace safely and effectively on active networks.

- Ends cable location confusion—decisively rejects noise and false signals
- Locates cables on active networks—even when terminated at a switch
- Isolates cable and wiring within a bundle despite cable bleed
- Confirms cable location, verifies continuity, and detects faults (opens, shorts, and reversed pairs) in one step

SmartTone® analog toning technology:

- Isolates individual wire pairs precisely by changing tone when shorted
- Effectively traces and locates voice, audio, and video cabling

Model	Description
MT-8200-60-KIT	IntelliTone Pro 200 LAN Toner and Pro 200 Probe, coax F connector adapter, (2) RJ11 and (2) RJ 45 patch cables, test leads with alligator clips, lanyards, quick start guide, and (2) 9 volt batteries
MT-8200-61-TNR	IntelliTone Pro 200 LAN Toner, coax F connector adapter, RJ11 and RJ 45 patch cables, test leads with alligator clips, lanyard, quick start guide, and 9 volt battery
MT-8200-63A	IntelliTone Pro 200 Probe, RJ11 and RJ 45 patch cables, lanyard, quick start guide, and 9 volt battery
MT-8202-05	IntelliTone Case Heavy-duty pack cloth padded and lined case with belt loops and d-ring
MT-8203-20	Test Leads with Bed of Nails: Set of two Banana Jack test leads with piercing pin 'Bed of Nails' alligator clips with vinyl sleeves
MT-8203-22	Test Leads with Alligator Clips: Set of two Banana Jack test leads with standard alligator clips with vinyl sleeves

To learn more visit: www.flukenetworks.com/intellitone

Pro3000™ Analog Tone and Probe

Pro3000 Analog Tone and Probe Kit tones and traces wire.

- Tone and trace wire on non-active networks
- SmartTone™ technology provides five distinct tones for exact pair identification
- Sends loud tone up to 10 miles (16 kilometers) on most cables
- Loud speaker on Probe makes the tone easier to hear through drywall, wood, and other enclosures
- Angled bed-of-nails clips allow easy access to individual pairs
- RJ-11 connector is ideal for use on telephone jacks
- Attach nylon pouch (included in kit) to your belt for easy transport

Model	Description
26000900	Pro3000 Analog Tone and Probe Kit
26100900	Pro3000 Analog Probe
26200900	Pro3000 Analog Tone Generator
26100103	Pro3000 Analog Probe replacement tip (two per bag)

Pocket Toner®

The Pocket Toner® connects to any voice, data, or video cable to detect open/short circuits, continuity, AC/DC voltage* and dial tone* all while protecting up to 52 volts. All of the Pocket Toners have dual audible indicators in the main body and detachable buzzer toner units, removable push on connectors, auto shut-off and easy-to-read indicators.

- Low-voltage circuit protection for both the unit and the detachable toner
- Dual audible indicators in the main body and detachable buzzer toner units
- Auto shut-off
- Easy-to-read indicators; removable push-on connectors
- Male and female adaptable toner section
- Lightweight, durable anodized aluminum body

Model	Description
PTNX1	Identify and test low-voltage, singular coax cables for continuity, opens/shorts and 50-75 Ω termination. Low-voltage protection up to 52 volts. Kit includes NX1 unit, toner, F-type (M-push, Speed 81™) adapters and 1-AAA battery
PTNX2	All the features of the NX1 plus AC/DC voltage detection- all in an easy-to-read LCD. Kit includes NX2 unit, toner, F-type (M-push, Speed 81) adapters and 1-AAA battery
PTNX2-DLX	All the NX2 features. Kit includes NX2 unit, toner, 66 block adapter, RJ-11 adapter, RJ-45 adapter, Dial Tone Detective™, alligator clips with RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1-AAA battery and deluxe case with belt clip
PTNX2-CABLE	All the NX2 features. Kit includes NX2 unit, toner, alligator clips adapter, F-type (F, M-push, M-71, Speed 81) adapters, 1-AAA battery and small canvas case
PTNX8	All the features of the NX1 and NX2 plus the ability to test up to 8 cables at once. NX8 unit, toner, F-type (M-push, Speed 81) adapters, 1-AAA battery and deluxe case with belt clip
PTNX8-CABLE	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, alligator clips, F-type (F, 9-M-push, M-71, Speed 81) adapters, 1-AAA battery and deluxe case w/ belt clip
PTNX8-CT	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, RJ-11 adapter, Dial Tone Detective, alligator clips with RJ-11 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, 1-AAA battery and deluxe case with belt clip
PTNX8-DLX	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, RJ-11 adapter, RJ-45 adapter, Dial Tone Detective, alligator clips with RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1-AAA battery and deluxe case w/ belt clip
PTNX8-VV-PRO	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, 8-RJ-11 adapters, RJ-45 adapter, Dial Tone Detective, alligator clips w/ RJ-11 adapter and RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1-AAA battery and deluxe case w/ belt clip
ADAP-PTNX-KIT	Alligator clips and RJ-45 adapter, alligator clips and RJ-11 adapter, Dial Tone Detective, RJ-11 adapter, 66 block adapter, RJ-45 adapter, F-type (F, M-Push, M-71, Speed 81) connectors, RCA (M, F) connectors, BNC (M, F) connectors and 2-wire clip adapter
CASE-PTNX-SM	Small case
CASE-PTNX-LG	Large case
PTNX8-ID-1-8	8-ID caps
ADAP-PTNX-RJ11	8 RJ-11 adapters
ADAP-PTNX-RJ45	8 RJ-45 adapters
ADAP-PTNX-TNR	1 Toner

TS®100 PRO Cable Fault Finder

Invest in the right tool for all your technicians. The new TS100 PRO Cable Fault Finder with PowerBT™ Bridge Tap Detect is a telecom technician's first line of defense against bridge taps on a subscriber's line. Because a bridge tap is a significant source of DSL network performance problems due to unwanted signal reflectance, it needs to be identified and fixed quickly before the problem causes customer attrition. The TS100 PRO can accurately locate multiple bridge taps in seconds on up to 3,200 feet of cable with the touch of a button.

- Bridge tap detection for xDSL pre-qualification on up to 3,200 feet (975 meters)
- Tests opens and shorts up to 8,000 feet (2.4 kilometers)
- Sees past bridge taps to the end of the cable
- Patented SmartTone® tone generator with five different tones for exact pair identification
- Built-in TDR and toner
- AC/DC voltage detection and digital read out

Model	Description
TS100-PRO-BT-TDR	TS100 PRO Cable Fault Finder TDR Kit with Bridge Tap Detect
LEAD-ABNP-100	Test lead with angled-bed-of-nails and piercing pin. Compatible with the TS100 and TS100 PRO
CASE-TS100	TS100/TS100PRO pouch with Fluke Networks' logo
LEAD-ALIG-100	Test lead with alligator clips. Compatible with the TS100 and TS100 PRO
LEAD-ABN-100	Test lead with angled-bed-of-nails. Compatible with the TS100 and TS100 PRO

To learn more visit: www.flukenetworks.com/ts100pro

TS⁹⁰/TS¹⁰⁰ Cable Fault Finder

Fluke Networks' cable fault finders are easy-to-use, three-in-one testers: a fault locator, a cable inventory manager and a toner with SmartTone[®] technology. Easily find the distance to opens or shorts on electrical wire, telephone wire, security wire and coax. Displays distance reading rather than waveform.

- TS90 works on any two or more conductor cable up to 2,500 feet
- TS100 works on any two or more conductor cable up to 3,000 feet (metric unit also available)
- Instantly measures distance to open or short from one end of any cable pair
- Patented SmartTone[®] tone generator positively identifies pair
- Measures cable distance on spool
- Measures constantly while "on"

Model	Description
26500000	TS100 Cable Fault Finder, BNC alligator clip
26500090	TS90 cable fault finder with BNC to alligator clips
26501100	TS90/TS100 line cord, BNC to alligator clip
26501160	TS90/TS100 pouch with belt clip
26501700	TS90/TS100 line cord, BNC to banana to ABN

Certification Management

LinkWare Live is a cloud-based service that lets you manage certification jobs and tools anytime, anywhere, with anyone on any device.

- Keep track of every test on every job
- Define cable IDs and test settings
- Manage your testers and make sure they are up to date
- Upload your test results straight from the job site over Wi-Fi
- Track the usage and location of your testers
- Update software in the field

OptiFiber® Pro OTDR

OptiFiber Pro OTDR is the industry's first data center OTDR built from the ground up to meet the challenges of enterprise fiber infrastructures. This fiber troubleshooting and certification tool combines uncomplicated power with unparalleled efficiency and the exact functions needed for troubleshooting or certifying campus, data center and storage fiber networks.

It elevates fiber testing with the industry's only smartphone interface that turns any technician into a fiber expert. The DataCenter configuration eliminates uncertainty and errors that occur when testing data center fiber. Its ultra-short dead zones enable testing of fiber patch cords in virtualized data centers. These capabilities, plus the fastest-in-the-industry trace times, make the OptiFiber Pro OTDR the must-have tool.

SmartLoop OTDR enables automated testing and analysis of two fibers in a single test. This patent pending process automatically separates the two fibers for individual pass/fail analysis, display, and reporting. Not only does this cut the testing time by at least half, it also enables bi-directional averaged OTDR testing of two fibers from one end.

- Effectively test data center fiber with the least set-up and trace time
- Accelerate fiber certification with trace times as short as two seconds in Quick Test mode
- Troubleshoot data center fiber links where short patch cables and dense connectors are common
- SmartLoop OTDR introduces the testing of two fibers in a single test eliminating the need to travel to the far end of the connection to perform tests
- Reduce network downtime by quickly and precisely identifying faults on singlemode (SM) or multimode (MM) fiber
- Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live

CertiFiber® Pro

CertiFiber Pro OLTS improves the efficiency of fiber certification with a 3-second, two-fibers-at-both-wavelengths test. The Taptive user interface simplifies set-up, eliminates errors and speeds troubleshooting. A set reference wizard ensures correct reference setting and eliminates negative loss errors. Built on the future-ready Versiv platform, CertiFiber Pro provides merged Tier 1 (Basic) / Tier 2 (Extended) testing and reporting when paired with OptiFiber Pro module. A convenient quad module supports both singlemode and multimode and is multimode Encircled Flux compliant. Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live.

CertiFiber Pro's double ended fiber optic inspection capability allows you to inspect and certify fiber optic connector end-faces at both ends of your fiber link in less than a second so you can get your job done the first time. This double ended fiber optic inspection capability provides automated PASS/FAIL certification, takes the guess work out of fiber inspection so anyone can be a fiber expert.

- Taptive™ user interface provides simple, animated guidance to eliminate incorrect reference setup and “negative loss” errors
- Fastest time to certify—two fibers at two wavelengths in three seconds
- Encircled Flux compliant as required by ANSI/TIA and ISO/IEC
- Double ended Pass/Fail certification of fiber optic connector endfaces
- Merged Tier 1 (Basic) / Tier 2 (Extended) testing and reporting when paired with OptiFiber Pro
- ProjX™ management system ensures all jobs are completed correctly and efficiently
- Convenient quad module supports both multimode and singlemode loss testing
- Extended singlemode distance range to 130 km
- Built-in Visual Fault Locator

FI-7000 FiberInspector™ Pro

End-face contamination is a leading cause of fiber failures. Dirt and contaminants cause insertion loss and back-reflection that inhibits optical transmission and causes havoc with transceivers. Fiber loss and OTDR testing can expose this problem, but in many cases, dirty connections make fiber testing time consuming and inaccurate.

Since dirt can be an issue before, during, or after fiber optic certification testing, and migrate from one end-face to another upon mating, both sides of any connection must always be cleaned and inspected. Further, mating contaminated connectors can cause permanent damage as microscopic debris is crushed between end-faces in physical contact. Even factory terminated patch cords or pigtails must be inspected as protective caps do not keep fiber optic connector end-faces clean. Avoiding this common cause of failure, starts with inspecting the fiber optic connector end-face and eliminating any contamination before insertion into a bulkhead or piece of equipment.

The FI-7000 FiberInspector Pro is a fiber optic inspection scope that allows you to inspect and certify end-faces in 2 seconds so you can get the job done the first time. This fiber optic inspection scope provides automated PASS/FAIL certification taking the guess work out of fiber inspection so anyone can be a fiber expert.

- Automated Pass/Fail certification of fiber optic connector end-faces
- Graphical indication of problem areas due to contamination, pits, chips, and scratches
- Certify to industry standards—IEC 61300-3-35
- Eliminate human subjectivity from end-face measurements

MultiFiber™ Pro

MultiFiber Pro is the first MPO fiber tester to support both Singlemode and Multimode MPO fiber certification. MultiFiber Pro takes the complexity out of testing MPO trunks for loss and polarity. With an on-board MPO connector, it is the first tester to automate the MPO fiber-trunk testing process without using a fan-out cord. The power meter/light source boasts industry-first functions such as automatic scanning of all twelve fibers and display of test results in an easy-to-read bar graph. These innovative features allow MultiFiber Pro kits to eliminate the complexity of testing MPO trunks, making it 90 percent faster than the traditional simplex fiber test methods.

- Automatic scanning and testing of all fibers in MPO connectors with “Scan All”
- Support for both Multimode and Singlemode MPO trunks
- Eliminates the need for fan-out cords when testing fiber trunks
- Easy-to-interpret test results with minimal navigation
- User interface displays all 12 fibers
- Automated 8, 10 and 12 fiber measurements
- Troubleshoot MPO links and drill down to single fiber test results

SimpliFiber® Pro Optical Power Meter

SimpliFiber Pro Optical Power Meter and Fiber Test Kits are the single “go-to” kits for anyone involved in first-line optical fiber cabling installation and verification. Designed for in-house fiber technicians as well as contractors, our expertly configured kits are housed in a professional and durable case and contain all the simple-to-use tools needed to quickly measure loss and power levels, locate faults and polarity issues, and inspect and clean connector end-faces.

- Dual-wavelength testing—complete testing in half the time
- Additional wavelengths to include 1490 and 1625—calibrated to extend from typical enterprise wavelengths for other applications
- Min/Max—precision tracking of intermittent power fluctuations, a superior alternative to the inaccurate “wiggle” test
- CheckActive™—audible tone and display icon alerts you to a live fiber
- Saves 1,000 results—compatible with our popular LinkWare™ Cable Test Management Software

Fiber Test Kits

SimpliFiber Pro fiber test kits come in every configuration to meet your testing needs. Each fiber test kit includes the following industry-leading features:

- Dual-wavelength testing—complete testing in half the time
- Additional wavelengths to include 1490 and 1625—calibrated to extend from typical enterprise wavelengths for broader applications
- Min/Max—precision tracking of intermittent power fluctuations. A superior alternative to the inaccurate “wiggle” test
- CheckActive—audible tone and display icon alerts you to a live fiber
- Saves 1,000 results—fully compatible with our popular LinkWare™ Cable Test Management Software
- Quickly locate cable fault, polarity, and connector problems with VisiFault VFL

Complete Fiber Verification Kit (FTK1450)

The Complete Fiber Verification Kits are perfect for network technicians and contractors who install and maintain premise networks with both multimode and singlemode optical fiber. Use these kits to verify optical loss and power levels at 850, 1300, 1310, 1550, and inspect fiber end-faces, locate cable faults, connector problems, and polarity issues.

Full-featured Inspection and Multimode Verification Kit (FTK1300 and FTK1350)

The Full-featured Inspection and Multimode Verification Kits are for network technicians and contractors who install and maintain multimode premises network. Use these kits to verify optical loss and power levels at 850 and 1300 nm, inspect fiber end-faces, locate cable faults, connector problems, and polarity issues.

Basic Verification Kit (FTK1000 and FTK2000)

The Basic Verification Kit is a great starter kit for network technicians and contractors who install and maintain fiber links. Available in single or multimode configurations, quickly verify optical loss and power levels at 850 and 1300 nm or 1310 and 1550 nm. Add additional sources, microscopes, and VFL options as needed.

Copper and Fiber Technician’s Kit (CIQ-FTKSFP)

Consisting of the CableIQ (CIQ-KIT) and the SimpliFiber Pro Basic Verification Kit (FTK1000), the Copper and Fiber Technician’s Kit provides a robust combination of tools to help you expertly manage your network to it keep it running smoothly and inexpensively. Simple-to-use straight from the box, you can do everything from quickly troubleshooting and qualifying cabling link bandwidth to verifying optical fiber power and loss.

FTK2100 Singlemode Fiber Verification Kit

Includes SimpliFiber Pro optical power meter, two singlemode sources (1310/1550 and 1490/1625 nm), carrying case, and SC power-meter adapter.

MS2-FTK Copper and Fiber Basic Technician’s Kit

Includes the MicroScanner² (MS2-100) and SimpliFiber Pro (FTK1000) Fiber Test Kit.

NFK1-SMPLX-ST	Simplex MM 62.5 μm test reference cords for ST adapter – set of two
NFK2-SMPLX-SC	Simplex MM 50 μm test reference cords for SC adapter – set of two
NFK2-SMPLX-LC	Simplex MM 50 μm test reference cords for LC adapter – set of two
NFK2-SMPLX-ST	Simplex MM 50 μm test reference cords for ST adapter – set of two
NFK3-SMPLX-SC	Simplex SM test reference cords for SC adapter – set of two
NFK3-SMPLX-LC	Simplex SM test reference cords for LC adapter – set of two
NFK3-SMPLX-ST	Simplex SM test reference cords for ST adapter – set of two

Fiber QuickMap™ - Multimode Fiber Length and Distance to Fault

Fiber QuickMap quickly and efficiently locates connections and breaks in multimode fiber with the press of one-button. By instantly (six second typical test time) providing distances to failures such as high-loss and high-reflectance incidents, it is the must-have troubleshooter for any technician who works with fiber in datacenters or campuses.

Locating faults like high loss connections or bad splices often requires a more expensive and complex Optical Time Domain Reflectometer (OTDR). The detail, documentation, certification and ease of use provided by a Fluke Networks OTDR is exceptional, but is not always required for basic tests. Fiber QuickMap uses reflections to determine where db losses are occurring in just a few seconds, and fills the gap between a Visual Fault Locator (VFL) and OTDR.

- Quick set-up. Connect your fiber and press the Test button. No lengthy set-up necessary
- Find problems quickly. Six-second test time—no more blind troubleshooting that can waste hours
- Locate high loss incidents or breaks—find the most common causes of fiber failure
- See Key information on a large display; loss in db and distance in meters or feet
- Visible in dark areas. Backlighted display turns off automatically
- Tests 50/125μm and 62.5/125μm multimode fiber up to 1,500 meters / 4,921 feet
- Removable SC adapter is easily cleaned
- Long battery life, 1,500 tests (typical) from 2 AA alkaline batteries
- Rugged construction; vibration and drop tested to 1 meter
- For singlemode fiber - Use Fiber OneShot PRO

Model	Description	Gold 1YR
FQM-MAIN	Fiber QuickMap mainframe with carrying pouch	GLD-FQM
FQM-KIT	Fiber QuickMap Kit with SC/LC 50 μm Launch Fiber, Interchangeable LC Adapter and carrying pouch	GLD-FQM
FTS900	Fiber QuickMap Kit with test reference cords (50 and 62.5 μm for both SC/SC and SC/LC), VisiFault Visual Fault Locator and carrying case	GLD-FQM
FTS1000	Fiber QuickMap Troubleshooter Kit with test reference cords (50 and 62.5 μm for both SC/SC and SC/LC), VisiFault Visual Fault Locator, and SimpliFiber Pro power meter and multimode source and case	GLD-FQM-FTK
FTS1100	Fiber QuickMap Troubleshooter Kit: Includes Fiber QuickMap, SC/SC and SC/LC (50 and 62.5 μm) hybrid test reference cords, VisiFault VFL, SimpliFiber Pro power meter and multimode source, FT500 FiberInspector Mini video microscope, and carrying case. (Available in the US only)	GLD-FQM-FTK

Fiber OneShot™ PRO - Singlemode Fiber Length and Distance to Fault

Fiber OneShot PRO takes the complexity out of singlemode fiber testing by analyzing fiber links and measuring faults up to 23,000 meters (15 miles) in less than five seconds. Whether you are troubleshooting FTTx, Hybrid Fiber Coax (HFC), fiber links between Central Offices, or working on regional or rural access networks, Fiber OneShot PRO is your first response to fiber trouble.

Locating faults like high loss connections, macro bends or breaks often requires a more expensive and complex Optical Time Domain Reflectometer (OTDR). The detail, documentation, certification and ease of use provided by a Fluke Networks OTDR is exceptional, but is not always required for basic tests. Fiber One Shot uses reflections to determine where db losses are occurring in just a few seconds, and fills the gap between a Visual Fault Locator (VFL) and OTDR.

- Quick set-up. Connect your fiber and press the Test button. No lengthy set-up necessary
- Find problems quickly. Six-second test time—no more blind troubleshooting that can waste hours
- Locate macro bends, high-loss splices, breaks and dirty connectors in singlemode fiber
- See Key information on a large display; power loss in db and distance in meters or feet
- Visible in dark areas. Backlighted display turns off automatically
- Tests 9/125µm singlemode fiber up to 23,000 meters / 15 miles
- Save and store up to 99 test results for later review
- Removable SC adapter is easily cleaned
- Long battery life, 1,500 tests (typical) from 2 AA alkaline batteries
- Rugged construction; vibration and drop tested to 1 meter
- For multimode fiber - Use Fiber QuickMap

Model	Description	Gold 1YR
FIBR-1-SHOTPRO	Fiber OneShot PRO only—includes meter, SC adapter, 22-language quick reference guide (QRG) on CD, manual and batteries	GLD-FOS-PRO

FiberInspector™ Mini Video Microscope

The FiberInspector Mini Video Microscope enables inspection of end-faces on all types of installed fiber. The portable video microscope projects a crisp, clear image of microscopic debris and end-face damage.

- The exceptionally convenient FiberInspector Mini uses a 200x magnification probe sufficient for inspecting both multimode and singlemode fiber
- Quickly determines whether fiber connectors on a hardware device are clean and in good condition without disassembling the device

Model	Description	Gold 1YR	Gold 1YR
FT500	FiberInspector Mini Video Microscope	GLD-FTINSPECTOR	GLD3-FTINSPECTOR

FT140	FiberViewer, 400X
NF350	1.25 mm Universal Microscope Adapter

VisiFault™ Visual Fault Locator

The laser-powered VisiFault™ Visual Fault Locator (VFL) traces fibers, verifies continuity and polarity, and helps find breaks in cables, connectors and splices. Continuous and flashing modes for easier identification. Compatible with 2.5 mm and 1.25 mm connectors for easy connection.

- Bright red visible laser light source, features continuous and flashing modes
- Accelerates end-to-end fiber continuity checks
- Speeds fiber tracing and identification
- Aids in location of fiber faults including tight bends, breaks and bad connectors

Model	Description
VisiFault	VisiFault Visual Fault Locator with 2.5 mm Universal Adapter
NF380	1.25 mm Universal VisiFault Adapter

Fiber Optic Cleaning Kits

Contaminated end-faces are the #1 cause of fiber link failure. Prevent this common problem with Fluke Networks' Fiber Optic Cleaning Kits and Components. These precision fiber optic cleaning kits and components allow effective removal of all contaminants from end-faces on both patch cords and inside ports.

- Everything needed for precision cleaning of end-faces on both patch cords and inside ports
- Compact form factor options available. Specially formulated solvent dissolves contaminants, neutralizes static charge and encapsulates particles for removal
- A range of wiper swabs enable decontamination of all styles of fiber optic connections
- Use the convenient and rugged carrying case to store all of the cleaning components

Model	Description
NFC-Kit-Case	Fiber Optic Cleaning Kit—includes cleaning cube with wipes, ten cards with sealed cleaning zones, solvent pen, 2.5 mm port cleaning swabs and 1.25 mm port cleaning swabs in a rugged carrying case
NFC-Kit-Box	Fiber Optic Cleaning Kit—includes cleaning cube with wipes, five cards with sealed cleaning zones, solvent pen and 2.5 mm port cleaning swabs
NFC-Cube	Cleaning cube with wipes—cleans up to 500 end-faces
NFC-Cards-5pack	5 cards with 12 sealed cleaning zones each—perfect for troubleshooting
NFC-SolventPen	Special solvent dispensed from pen (9 g)
NFC-Swabs-1.25mm	LC and MU port cleaning swabs (25 count)
NFC-Swabs-2.5mm	SC, ST, 2.5 mm port cleaning swabs (50 count)
NFC-Case	Carrying case for cleaning accessories
NFC-IBC-1.25mm	OneClick cleaners for 1.25 mm LC and MU connector and patch cord (5 qty)
NFC-IBC-2.5mm	OneClick cleaners for 2.5 mm SC, ST, FC connector and patch cord (5 qty)
NFC-IBC-MPO	OneClick cleaners for MPO/MTP connector (5 qty)
NFC-KIT-CASE-E	Enhanced Fiber Optic Cleaning Kit—includes (1) OneClick cleaner for 1.25 mm connector, (1) OneClick cleaner for 2.5 mm connector, (1) OneClick cleaner for MPO/MTP cleaner, a solvent pen, a cleaning cube and a softcase
FT525	FiberInspector Mini and Cleaning Kit

JackRapid™ Termination Tool

The JackRapid Termination Tool is the industry's most innovative and time-saving installation tool. JackRapid allows you to terminate jacks eight times faster than traditional impact tools—with accuracy that's unmatched. The patented jack termination tool seats and terminates all wires simultaneously with one squeeze of an ergonomic handle. The built-in blade cuts off the excess wire after it is seated in the connector, eliminating the need for a secondary trim step. Simple, one-handed operation reduces hand fatigue. With JackRapid, you'll never punch into the palm of your hand or through drywall again.

- Cuts installation time—easy-to-use handle, seats and cuts all wires at once, saving you up to one minute installation time per jack
- High-quality, consistent terminations—no more compromised connections and wasted jacks
- Simple, one-handed operation with an ergonomically designed handle reduces hand fatigue

Model	Description
JR-LEV-1	JackRapid termination tool (for Leviton 41106, 41108, 5G108)
JR-LEV-1-H	JackRapid replacement blade head (for Leviton 41106, 41108, 5G108)
JR-SYS-UNI-1	JackRapid termination tool (for Systimax MPS100E, C5, M1BH and Uniprise UNJ600/500/300)
JR-SYS-UNI-1-H	JackRapid replacement blade head (for Systimax MPS100E, C5, M1BH and Uniprise UNJ600/500/300)
JR-LEV-2	JackRapid termination tool (for Leviton 61110, 5G110, 6110G)
JR-LEV-2-H	JackRapid replacement blade head (for Leviton 61110, 5G110, 6110G)
JR-SYS-2	JackRapid termination tool (for Systimax MGS400, MGS500, MFP420, MFP520)
JR-SYS-2-H	JackRapid replacement blade head (for Systimax MGS400, MGS500, MFP420, MFP520)
JR-ORT-2	JackRapid termination tool (for Ortronics TJ5E00, TJ600, TJ610)
JR-ORT-2-H	JackRapid replacement blade head (for Ortronics TJ5E00, TJ600, TJ610)
JR-ADC-2	JR-ADC-2, JACKRAPID TERMINATION TOOL (FOR ADC C6a CopperTen® UTP RJ45 jack and the C6 TrueNet® KM8 UTP RJ45)
JR-ADC-2-H	JR-ADC-2-H, JACKRAPID REPLACEMENT BLADE HEAD (FOR ADC C6a CopperTen® UTP RJ45 jack and the C6 TrueNet® KM8 UTP RJ45)
JR-ERGOHANDLE	JackRapid ergonomic handle
JR-PAN-2	JackRapid termination tool (for Panduit NK688M, NKP5E88M)
JR-PAN-2-H	JackRapid replacement blade head (for Panduit NK688M, NKP5E88M)

To learn more visit: www.flukenetworks.com/jackrapid

Get accurate terminations and clean, consistent cuts every time with the JackRapid Termination Tool.

1. Strip cable jacket with a standard cable stripper or the built-in cable stripper.

2. Determine wiring scheme. Dress all four pairs (eight wires).

3. Insert jack in JackRapid front first with IDC slots facing blades of JackRapid.

4. Ensure jack is completely and securely inserted in jack holder bed with IDC slots facing the blades.

5. Pull trigger completely and remove excess wire prior to releasing trigger.

6. Wires will be seated and cut for a solid termination.

D914™S Impact Tool

SoftTouch D914S Impact Tool offers an ergonomic design with a soft rubber handle for better grip and rounded edges to absorb more of the impact recoil. Includes built-in probe pic/spudger and torque, allowing you to choose from high-and low-impact settings.

- Reduced hand-fatigue with shock absorbing handle
- Hook and spudger to lift and separate wires
- Automatic spring handle—choose low impact for 24/26 gauge wire or high impact for 22-gauge wire
- Accepts Phillips-head or flat screwdriver blade
- Convenient blade storage built into the handle
- Easy blade insertion, locks in place
- Industry standard, internationally accepted with lifetime warranty

To learn more visit: www.flukenetworks.com/d914

Model	Description
10061000	D914S Impact Tool
10061100	Tool with EverSharp 66 blade
10061110	Tool with EverSharp 110 blade
10061501	Tool with EverSharp 110, EverSharp 66 blade and free screwdriver blade
10061503	Tool with BIX and EverSharp 66/110 cut blade
10061810	Tool with EverSharp 66/110 blade

D914™ Impact Tool

The D914 Impact Tool is the only punchdown tool to combine torque and impact. It combines two versatile tools, the hook and spudger, into the handle. 66/110 blades available.

- Ensures clean, smooth terminations
- Hook and spudger tools are built into the handle
- Automatic spring handle—choose low impact for 24/26 gauge wire or high impact for 22-gauge wire
- Accept Phillips-head or flat screwdriver blade
- Convenient blade storage built into the handle
- Easy blade insertion, locks in place
- Industry standard, internationally accepted with lifetime warranty

To learn more visit: www.flukenetworks.com/d914

10051501	Tool with EverSharp 110, EverSharp 66 blade and free screwdriver blade

D814™ Impact Tool

The D814 Impact Tool is a deluxe, all-in-one, telecom punchdown tool and comes with the 66/110 blade. Impact wheel has high and low settings. Automatic spring mechanism provides the right impact to seat and/or terminate wires.

- Industry standard with lifetime warranty
- Accepts standard industry blades
- Adjustable spring impact mechanism allows low impact for 24/26 gauge wire or high impact for 22-gauge wire
- Convenient blade storage built into the handle
- Easy blade insertion, locks in place

EverSharp™ Blades

Fluke Networks offers three EverSharp blade designs: the EverSharp 66/110 cut blade, the EverSharp 110 blade and the EverSharp 66 blades. Through special processing of the metal, these high performance blades stay sharper longer than other competitive blades. These blades fit the D914S, D914 and D814 punchdown tools.

Model	Description
10056500	EverSharp 66 blade
10176500	EverSharp 110 blade
10178600	EverSharp 110/66 blade

Blade Storage Kit

This unique blade storage case helps prevent loss, misplacement and damage of impact blades by keeping them all together in one convenient hard case. They are sized to fit neatly into shirt or pants pocket or clipped onto belt or tool pouch.

Model	Description
10979003	66 blade kit (2-66 blades, 1-630 blade, 1-Wood Screw Starter blade) in a storage case
10979004	110 blade kit (2-110 blades, 1-66 blade, 1-Wood Screw Starter blade)
10979002	Blade storage case only

Blades

Fluke Networks increases the versatility and flexibility of its line of impact tools by offering a wide variety of interchangeable blades that permit each tool to perform multiple functions. From our high-performance EverSharp blades, to our unique blade storage kit cases, Fluke Networks has the blades you need to terminate blocks and jacks quickly.

Pro-Tool™ Kits

All the professional tools you need to cut, strip, clean and connect network phone and data lines to blocks and jacks. Bundled together in our sleek form-fitting PVC Dur-A-Grip™ tool pouch—holds your tools securely inside, even upside down. Five tool kit combinations to choose from to meet a multitude of applications.

- All kits include ergonomically designed Dur-a-Grip pouch for convenient tool storage on belt
- D914™ and D814™ industry standard punchdown tools make for solid terminations
- Easy-to-use cable stripper quickly rings and slits many types of cable
- Cut and strip wire cleaner and faster with the Electrician's D-Snips

Electrical Contractor Telecom Kits

Fluke Networks Electrical Contractor Telecom Kits are comprised of industry standard telecommunications tools and test equipment. Contents include D814™ impact tool, cable stripper, probe pic, Electrician's D-Snips, standard 4-wire modular adapter and EverSharp™ 66/110 cut blade. Soft carrying case included for easy organization.

- Choose either Kit I with TS®30 Test Set or Kit II with Pro3000 Analog Tone and Probe
- D814 industry standard punchdown tool for reliable terminations
- EverSharp 66/110 cut blade provides flexibility for different block and jack terminations
- Cable stripper quickly rings and slits many types of cable
- Use the probe pic to check for loose or damaged connections
- Cut and strip wire cleaner and faster with the Electrician's D-Snips
- Connect to jacks for testing with the standard 4-wire modular adapter
- A soft zippered pouch keeps your tools all in one convenient place

44500000	Electrician's snips

Cable Strippers

This line of cable strippers includes a double slotted cable stripper for 22/24 AWG wire installation and a coax stripper to perform 2-level and 3-level stripping of RG58/59 coaxial cables. We also offer a combo stripper that cuts and rings Teflon®, smoothly slits fiber, copper and coaxial cables and rings 25-100 pair cable.

- Full line of cable strippers for any job
- Round cable stripper for a variety of flexible round cable
- Coax strippers with two or three levels

To learn more visit: www.flukenetworks.com/strippers

Model	Description
11230002	Cable stripper (round cable)
44210013	Double slotted stripper with cutter, 22/24 gauge
44200013	Double slotted stripper 22/24 gauge
11231257	Coax stripper, 2-level
11231255	Coax stripper, 2 and 3-level
44210015	Double-slotted stripper with cutter, 24/26 gauge

Need-L-Lock™ Crimping Pliers

The Need-L-Lock pliers' patented four-in-one tool combines UR/UY/UG connector crimper with needle-nose pliers so you can carry one less tool on your belt. Aligned crimping jaws come down square ensuring a solid connection. Jaws are grooved to provide a better grip on wires and feature a built-in cutter and wire stripper.

- Needle nose crimping pliers
- UR/UY/UG connector crimper
- Wire stripper hole for 22-to 24-gauge wire
- Built-in side cutter
- Rubber coated handles for non-slip grip

TS⁵⁴ TDR Test Set

A three-in-one—TDR, toner and pair identifier—premium, VDV test set

Ten testing functions include:

- TDR—find cable length measurement and locate faults on virtually all types of cable including twisted pair, coaxial, and parallel conductors
- Toner—five separate tones for fast and easy differentiation between multiple wire pairs
- SmartTone[®]—short the correct pair and tone changes for exact pair identification
- Data indication—warns when data is present on the line
- Voltage indication/measurement—identifies potential line problems
- Current (mA) indication/measurement—verifies sufficient line current
- Caller-ID with Call Waiting CID—verifies functional service
- DTMF Digit Grabbing—isolates faulty customer premise equipment
- Detects dial tone, places and receives calls
- Polarity

TS⁵² PRO LCD Test Set

The TS52 PRO Test Set features the latest in test set technology. Designed with a superior, radiant liquid crystal display (LCD) user interface, it allows you to see what cannot be heard in any outside plant environment. The back-lit LCD and glow-in-the-dark keypad brings light to even the darkest of work environments, providing perfect line diagnostic clarity. The TS52 PRO Test Set is also equipped with 2-way speakerphone and DataSafe[™] Pro data protection technology featuring superior high-impedance monitoring, data lockout and lockout override, making you completely safe.

- Display—back-lit LCD and glow-in-the-dark keypad
- DataSafe Pro—superior high-impedance monitoring, lockout and override, making you completely safe in any mode
- DropSafe/RainSafe[™]—passes 20-foot drop test and designed for use in rainy conditions
- DSL/POTS filtering technology—allows technicians to clip on a live DSL line to test POTS service without downing or disrupting data service
- Two-way, hands-free speakerphone—for true hands-free conversation
- Test Functions:
 - Data indication: warns when data is present
 - Voltage indication: troubleshooting feature to identify potential line problems
 - Current (mA) indication: verifies sufficient line current
 - Caller-ID: verifies service is functional
 - DTMF digit grabbing: isolate faulty customer premise equipment

TS³⁰ Test Set

The TS30 Test Set features a rigid test set case design, at an affordable price. The ergonomic non-slip grip handle provides improved handling of the set in all weather conditions. Includes DataSafe™ operation so technicians can clip onto a line in monitor mode, without disrupting existing data traffic.

- High impedance DataSafe operation in monitor mode
- DropSafe™ reliability passes 20-foot drop test
- RainSafe™ protection in severe weather conditions
- Mute switch
- Last number redial

Model	Description
30800009	TS30 test set with Angled Bed-of-Nails (ABN)
30800001	TS30 test set with piercing pin clips

To learn more visit: www.flukenetworks.com/ts30

TS²² Series Test Sets

The TS22 Series offers a unique built-in, one-way amplified speaker that provides three audio levels for hands-free listening and use with automated voice response systems. Multiple memories enable storage of nine 18-digit telephone numbers in repertory dialer (speed dialing) for easy access to test boards, the central office and other frequently called numbers. The last number redial feature eliminates the need to re-key your last entry. The TS22 test set offers an unbeatable combination of reliability, durability and expanded utility.

- Amplified speaker for hands-free monitoring
- Two-way speakerphone for true hands-free conversation
- DropSafe™ reliability passes 20-foot drop test
- RainSafe™ protection in severe weather conditions
- Stores nine 18-digit numbers in repertory dialer (speed dialing)

TS^{25D} LCD Test Set

The TS25D Test Set features data lockout and lockout override, making you completely safe in talk or monitor mode. The DSL/POTS filtering technology allows you to safely draw dial tone without downing DSL. A built-in analog tone generator simplifies wire identification with a probe. An amplified speaker makes monitoring the line hands-free, so you can keep working. The Talk Battery function provides voltage to carry voice conversation on non-powered pairs. Also includes Caller-ID and Call-waiting Caller-ID functions. All in a compact unit with an oversized, robust liquid crystal display (LCD) that makes the intuitive, common-sense menus easy-to-read and use.

- Caller-ID and Call-waiting Caller-ID
- Amplified speakers for hands-free monitoring
- Data lockout and data lockout override
- Tone generator for wire identification
- Talk battery to power voice conversation on dry (non-powered) lines

Model	Description

TS¹⁹ Test Set

The TS19 Test Set combines all the essential test set features at an affordable price. This test set was specifically designed for in-house telecom technicians. Its high impedance monitor prevents accidental disruption of service from clipping onto a data line while in Monitor Mode, thus ensuring the integrity of critical data lines. Features such as tone (DTMF) or pulse operation, talk/monitor capabilities, polarity test button and last number redial make this test set the perfect combination of features and price.

- High impedance DataSafe operation in monitor mode
- Tone (DTMF) and pulse operation and last number redial
- Polarity indication in talk mode

In-line Modular Adapter (4, 6, and 8-wire)

In-line banjo modular adapters permit testing on working lines without disrupting service. Quickly determine whether the trouble is in the phone or in the line.

- Easily complete testing and obtain circuit access on working lines without disrupting service
- Clear circuit markings on the sides and bottom of the unit
- Test line status with the 4-wire modular adapter

4-wire Standard Modular Adapter

Provide a quick connect to modular telephone jacks using any standard butt-in test set equipped with spring clips.

- Easily complete testing and obtain circuit access on working lines without disrupting service
- Clear circuit markings on the sides and bottom of the unit
- Test line status with the 4-wire modular adapter

Spare Modular Adapter Cords (standard and K-plugs)

In-line banjo modular adapters feature replaceable adapter cords which enable broken jack clips to be replaced without discarding the entire unit. K-plug versions have rugged jack clips.

Model	Description
10113000	4-wire modular adapter
10210100	4-wire in-line modular adapter

Voltage Detector

In just a few seconds, a technician can determine if it's safe to work around areas such as transformer cases and circuit breaker housings, power ground wires or newly-driven ground rods, mobile homes, metallic siding or metal framing, pedestals, cross boxes or conduit, street light fixtures or electrical machinery. The Voltage Detector is a proven life-saver, with more than 30 years of service in telecommunications outside plant and power utility applications.

- Helps protect against accidental electrocution
- Fast and easy-to-use
- Rated to 20,000 Vac and 2,000 Vdc

Model	Description
