Calibration Plans

In keeping with ISO certification guidelines, AFL recommends 3 years calibration intervals for NOYES Contractor Series Instruments as guidance for our customers. It is the responsibility of individual customers to determine actual calibration intervals used align with internal corporate ISO directives. Additionally, contractors providing services may need to maintain annual calibrations per contractual agreements with their customers. AFL offers calibration plans for customers preferring annual calibration for their Test and Inspection instruments. Annual calibrations performed at NOYES calibration facilities ensure your equipment is operating at NOYES specifications. Prepaid Cal plans save you money by offering two annual calibrations at a discounted price.
